PORTABLE SANITATION ASSOCIATION Forms Here

More than a hundred dealers and manufacturers in the fast growing portable sanitation facilities industry gather tomorrow for their Chartering Congress and First Annual Meeting. The new association, just chartered as a D. C. "not-for-profit" corporation, begins its first year of service and representation of the now viable portable systems industry which provides mobile buildings and chemical toilet facilities to construction, recreation, and outdoor sites.

Presiding at the meeting at the Marriott Twin Bridges Motor Hotel on Friday and Saturday is Irvin Juster of Schenectady, New York. Juster was elected as "Organizing Committee" Chairman at an earlier exploratory meeting in Washington. Other members of the Organizing Committee are operators and suppliers from several states from coast to coast.

Prominent on the Chartering Program of PSA will be speakers from both government and commerce and special panels devoted to both operational and organization subjects. Election of officers and approval of Bylaws, Ethics Code and other fiscal papers will be voted upon. Winding up the program Saturday will be the presentation of Organizing Charter Membership to those firms who become members by that time.

Headquarters serving the association are in Washington, D. C. at 2011 Eye Street, N. W. Affairs up to this point have been guided by the Organizing Committee, headed by Mr. Juster, pending election of the group's first Board of Directors on May 1.
